

27TH NUCLEAR AIR TREATMENT AND CLEANING CONFERENCE

Table of Contents

Dr. Ronald R. Bellamy

Conference Chair

1. Welcome and Conference Agenda; Bellamy
2. New Reactor Licensing; Lyons
3. An Overview and Status of the Hanford Tank Waste Treatment and Immobilization Plant; Duncan and Winkler
4. An Overview of NRC Fission Product Research; Schaperow (no text available)
5. The ASME Process for Generating and Issuing Codes and Standards; Sanna
6. Defense Nuclear Facilities Safety Board Air Cleaning Activities; Zavadoski (no text available)
7. Nuclear HVAC Utility Group (NHUG); Adams
8. ASME AG-1 Section FI Experiences; Weber
9. Treatment of Off-gases from Melting Reactor Fuel; Hyder, Hodges, and Peacock
10. Air Treatment Issues Associated with a Mixed-Oxide Fuel Fabrication Facility; Johnson
11. Sand Filter Issues at Savannah River Technology Center; Brinkley
12. Technical Issues for Implementing Alternative Source Term at Nuclear Power Reactors - Aerosol Deposition Model in BWR Steam Lines; Metcalf
13. Revisions to USNRC Regulatory Guide 1.52; Walker
14. Airflow Traverse Comparison Using the Equal Area Method and the Log-Linear Method and Including Travers Location; Banks, Ellis, and Graves
15. Performance Testing, Seismic, and Environmental Qualification of a Safety Related Chiller; Hemrick

16. Laboratory Testing of Nuclear-Grade Activated Charcoal Since Implementation of Generic Letter 99-02; Freeman
17. Dedication of Commercial Prefilters for Nuclear Safety Related Applications; Franklin
18. Quality Assurance Testing of Filters; Crosby and Davis
19. Component Leakage Testing Using Tracer Gas Techniques; Lagus
20. Maine Yankee Decommissioning; Burke
21. Use of Localized HEPA Filter Ventilation for Radiological Work; Eby
22. Review of the Davis Besse Reactor Head Issue; Adams
23. HEPA Filter Bank Fire; Hayes
24. ASME CONAGT Code Status; Porco (no text available)
25. Nuclear Power Plant Control Room Habitability Improvement Action Plan; La Vie (no text available)
26. Utility's View of Control Room Habitability Testing; Schultz
27. United States Control Room Habitability Testing: Summary and Lessons Learned; Campbell
28. NEI Issues with Control Room Habitability Systems; Cozens (no text available)
29. A Summary of Control Room Envelope Inleakage Measurements; Lagus
